PROBLEM STATEMENT

4

Development Project:

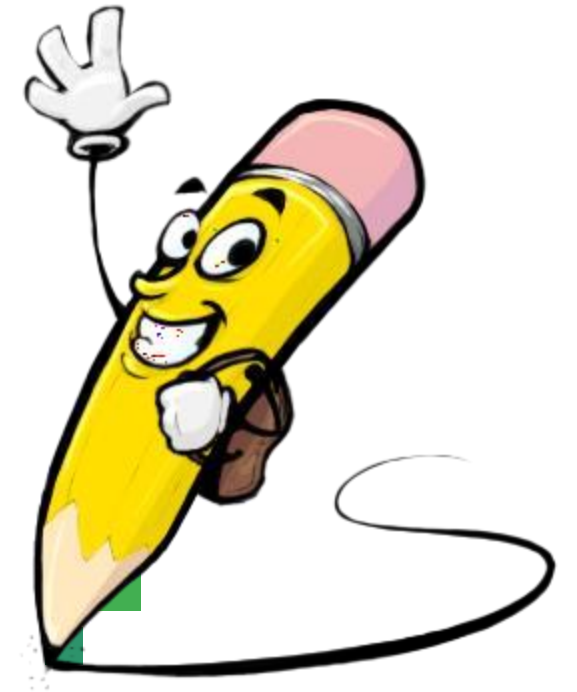

- 1.Many children cannot go to school.
- 2.Some students leave school early.
- 3.Old teaching methods are boring.
- 4.Not all students have internet or computers.
- 5.There are not enough good teachers.
- 6.Some students cannot understand the teaching language.
- 7.Students learn theory but not enough practical skills.

PROJEC EOVERVIEW

PROJECT OVER VIEW

The Education Development Project aims to improve the quality of learning and make education accessible to everyone. The project focuses on providing better teaching methods, modern tools, and equal opportunities for students. It also works on reducing dropout rates, training teachers, and introducing digital learning. By using technology and new ideas, the project helps students gain both knowledge and practical skills for their future,

WHO ARE THE END USERS?

6

- 1.Students** – They are the main end users who benefit from better learning resources and opportunities.
- 2.Teachers** – They use improved teaching methods and training to help students learn better.
- 3.Schools/Colleges** – Institutions that implement the project to improve education quality.
- 4.Parents** – They benefit when their children get quality education and skills.
- 5.Community/Society** – The whole community gains from educated and skilled individuals.

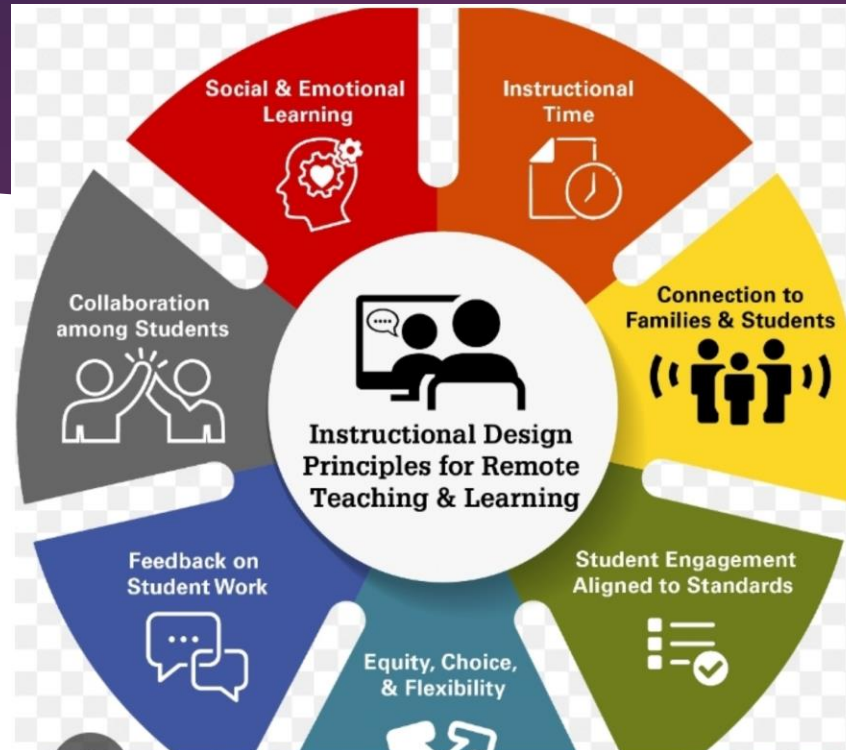

TOOLS AND TECHNIQUES

- **Tools and Techniques**
- **Digital Tools** – Computers, tablets, projectors, smart boards, and mobile apps.
- , Zoom, Microsoft Teams, e-learning websites.
- **Learning Management Systems (LMS)** – For managing lessons, tests, and student progress.
- **Interactive Methods** – Group discussions, role play, quizzes, and project-based learning.
- **Teaching Techniques** – Blended learning (online + classroom), flipped classroom, storytelling.
- **Assessment Tools** – Online tests, assignments, feedback systems.

1.Data Analysis Tools – To track student performance and improve teaching methods.

POTFOLIO DESIGN AND LAYOUT

FEATURES AND FUNCTIONALITY

1. **User-friendly Interface** – Simple design for easy navigation by students and teachers.
2. **Student Registration & Profiles** – Allows students to create accounts and manage personal details.
3. **Course Management** – Teachers can upload lessons, notes, videos, and assignments.
4. **E-Library / Resource Center** – Access to study materials, books, and references online.
5. **Assessment & Quizzes** – Online

Functionality

- **Login & Authentication** (Students, Teachers, Admin).
- **Upload & Download** educational resources.
- **Search Function** for finding courses, topics, or materials.
- **Real-time Notifications** for assignments, grades, or announcements.
- **Interactive Dashboard** for quick overview of progress and activities.

RESULTS AND SCREENSHOTS

Learning Topics

What is CSS?

CSS stands for Cascading Style Sheets. It is used to style and design web pages with colors, layouts, and fonts.

What is HTML?

HTML stands for Hyper Text Markup Language. It is used to structure content on web pages.
